Career Objective

Computer Science Engineering undergraduate with strong foundations in Java, Data structures, and full-stack development (MERN). Experienced in building end-to-end Web applications and ML-driven systems with a focus on backend logic, APIs, and scalability. Actively improving problem-solving skills and seeking an engineering role to work on high-impact, production-quality software.

Skills

Technical Skills

Programming Languages: Java, Python, JavaScript

Web Technologies: ReactJS , HTML5, CSS3

Backend & Databases: NodeJS, ExpressJS, MongoDB, MySQL

Soft Skills

Problem Solving
Team Collaboration
Communication
Analytical Thinking

Education

- **Bachelor of Technology (B.Tech)** - Computer Science Engineering
Babu Banarasi Das University, Lucknow
Year of Graduation - 2027, CGPA - 8.41
- **Intermediate (12th)**
LPM Public School, Gorakhpur
Passing Year - 2023, Percentage - 70%
- **High School (10th)**
LPM Public School, Gorakhpur
Passing Year - 2021, Percentage -81.4%

Projects

Resume Intelligence System

- Developed an AI-driven System to generate resume on the basis of desired job role
- Designed backend services using NodeJS
- Built responsive frontend using React

Numerology Insights (Frontend Project)

- Developed a responsive numerology insights web interface allowing users to input personal data and view generated numerology results.
- Designed interactive UI with modern frontend technologies and deployed on Vercel.
- Focused on responsive design and structured result presentation.

MERN Stack E-Commerce Application

- Built a full-stack e-commerce platform with user authentication and cart functionality
- Implemented REST APIs using Node.js and Express.js and managed data with MongoDB
- Designed reusable React components to support scalable UI development

Activities & Achievements

- Presented research paper at ACED-2025 Conference organized by The Institution of Engineers (India)
- Participated in Code for Bharat Hackathon – Tech Master India
- Active member of Aaina Technical Team , Babu Banarasi Das University , Lucknow

Problem Solving

- Practicing Data Structures and Algorithms using Java
- Solved problems involving arrays, strings, recursion, and hashing
- Familiar with time and space complexity analysis

Certifications

- AI Tools Workshop – be10x
- Research Paper Presentation Certificate – All India Conference
- Java Programming – Knowledge Gate
- Code For Bharat Hackathon Participation Certificate –Tech Master India
