UTKARSH PANDEY

Software Engineer
Lucknow, Uttar Pradesh, India | +91 6389770100 | utkarshpandey1300@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Java Full Stack Developer with a focus on AI integration and a B-Tech in Computer Science. Strong foundation in Java, Data Structures, and building scalable REST APIs. Proven experience developing end-to-end web applications (React.js, Node.js, SQL/NoSQL) and delivering data analytics platforms during an industry stint at Tata Motors. Passionate about leveraging AI to build intelligent, high-impact software. Looking for a challenging engineering role to build production-quality, AI-powered applications

TECHNICAL SKILLS

- Languages: Java, JavaScript (ES6+)
- Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design, Vite
- Backend Development: Node.js, Express.js, RESTful APIs, SpringBoot
- Databases: MongoDB, PostgreSQL, SQL
- Core CS Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks (TCP/IP, HTTP), Databases
- AI/Tools Integration: Gemini API, AI Model Integration, Prompt Engineering
- Developer Tools: Git, GitHub, VS Code, Cursor, Version Control, Open-Source Contribution

EDUCATION

Babu Banarasi Das University, Lucknow 2023 - 2027
Bachelor of Technology in Computer Science Engineering - CGPA: 8.41/10
Relevant Subject: Data Structures & Algorithms, OOPs, Operating Systems, Computer Networks, Database Systems, Algorithm Analysis

LPM Public School, Gorakhpur 2022 - 2023
Intermediate (12th) - 72.33%

LPM Public School, Gorakhpur 2021 - 2022
High School (10th) - 83%

PROJECTS

Smart Email Assistant
Java, Spring Boot, Spring AI, Gemini, React.js

- Built an AI-powered email reply generator using Spring Boot + Spring AI + Google Gemini, with REST APIs and a React.js interface.
- Developed a browser extension for generating AI-assisted replies directly within the email workflow. Implemented prompt engineering and configurable response tones for context-aware email generation.

ResYum – AI-Powered Resume Intelligence System
React.js, Node.js, Express.js, JWT, Gemini API, Puppeteer

- Developed a market-ready web application focusing on reliable user session management and security, demonstrating an understanding of enterprise software standards.
- Engineered a B2B-focused AI skill-gap analyzer using the Gemini API, successfully creating a product that solves recruitment efficiency challenges by accurately matching candidates to job requirements.
- Designed and built the PDF generation engine in the backend using Puppeteer, to create semantic, ATS-friendly resumes.

PROFESSIONAL EXPERIENCE

Summer Intern - Tata Motors June 2026 – July 2026

- Designed an AI-driven, end-to-end data analytics solution to automate EDA and data preprocessing process for industrial sensor and operational data, making it easier to analyse the industrial data
- Worked in collaboration with the various technical teams for designing and iterating the diagnostic tool which has a low latency user interface and handles errors in the web environment for the industrial data
- Bridged the gap between technical data engineering concepts and business utility by extracting and presenting actionable insights from raw sensor data.

AI Volunteer — BBD University *Feb 2026 – Present*

- Act as Student Coordinator for all departmental AI activities, coordinating the logistics and communication between the teams for industrial visits and workshops

ACHIEVEMENTS & CERTIFICATIONS

- Presented a research paper, "Advanced Civil Engineering Practices for Sustainable Infrastructure Development", at the All India Conference (ACED 2025); received Certificate of Participation.
- Secured one of the Top 25 positions (among hundreds of participants) in Code of Bharat Season 2 Hackathon 2025, organized by Teach Master India.
- Earned Full Stack Web Development Certification GrasTech.
- Open-Source Contributor, GirlScript Summer of Code (GSSoC) 2026
